

# Intensive Spanish & Culture

## COURSE DESCRIPTION

This program is designed for students of the Spanish Department who want to enhance their knowledge and skills in Spanish language and Culture, in an intensive format. The purpose is to offer an opportunity to improve their Spanish skill, immerse themselves into the richness of Spanish culture and interact with Spanish people with an intercultural field component. The program will be implemented following the Pedagogical Approach of "Experiential Learning" by an expert team of Teachers, Monitors and Intercultural Facilitators.

## PROGRAM OVERVIEW

**Content based Spanish.**

**Cultural activities.**

## AREA SKILLS TO STRESS ON

- Teamwork skills.
- Produce and comprehend spoken and written Spanish through effective use of the language in daily situations and in the academic context.
- Get Familiarized with Spanish society and culture through specific workshops and field activities.
- Increase intercultural abilities by carry out tasks with Spanish siblings and guided interactions with the community.
- Taking initiative.
- Autonomy/Safety in a different culture.

## SPANISH COURSE

The classes are dynamic and interactive and are taught by qualified native teachers in small groups of different levels. Students not only learn Spanish in a fun way, but they will function in this language, acquiring grammatical concepts and vocabulary to use in their homestay and social interactions. This intensive language course is designed to strengthen the students' communicative competency.

The Spanish course is divided in Notional-functional Spanish where students work in four linguistic areas: oral production, oral comprehension, reading and writing; also Thematic Spanish where language is learned by different aspects of Spanish culture like cooking, music, cultural heritage or natural environment.

Our students show great motivation to keep progressing in their learning as they learn a real and practical Spanish.
