**SPANISH LANGUAGE COURSES IN  
SEVILLA**

---

TEC SEVILLA  
14, San Juan de Dios str.  
41005- Seville (Spain) Phone num.: +34 955 456107

**Sevilla** is located in the southeast of Spain, being the capital of Andalusia, where the Government and the Parliament of the Autonomous Community are based. The city of Seville is located in the valley of the Guadalquivir River, which runs through the city. The port of Seville played an important role in the trade between Spain and the Americas for centuries, and remains even today as one of the most active river ports on the Iberian Peninsula.

The long Arab occupation of the Iberian Peninsula, from 711 to 1248 in this area, left a great artistic and cultural legacy in Seville, as well as in al-Andalus. The Giralda, the tower of an important mosque, is the best known from the monuments of that time that still remains, as Cathedral and Royal Alcazares.

Sevilla is located a few kilometers from the coast, with beaches as spectacular as the one in Tarifa (Cádiz), or the Coto de Doñana in Huelva, worthy of visiting for its climate and beauty.

## THE SCHOOL

**TEC academy** is located in the neighborhood of Nervion, where the university, businesses and a commercial zone can be found. There's a convenient public transportation network, with the metro line 1, tram and numerous bus lines being easily accessible. Fancy a pleasant walk, it's only about a fifteen minute walk from the historic center.

The school is run by a highly qualified team, which members are convinced that education is not only an essential part to be successful in the future, but that it can change your life, both now and in the future. Our venue is fully equipped and prepared for teaching; Classrooms to teach classes, Wi-Fi, and a team of professionals waiting for the language learning process to be satisfactory. As a **certified SIELE exam center**, we offer our students the possibility to take the exams at our premises themselves, and to set the exam date according to their convenience, in order to return to their country with the official accreditation of the acquired level.

We offer intensive Spanish courses of fifteen or twenty hours a week, from Monday to Friday, in the mornings, with the aim of learning the language in a pleasant and welcoming environment, providing our students with a study programme adapted to their level. Throughout the course they will also have personalized level tests to evaluate if they have been fulfilling the objectives previously set for each student, and an exam that will determine at the end of the course what definite level has been reached.

At the same time, we offer a programme of cultural and leisure activities bundle, aimed at getting to know the city of Sevilla from different perspectives, also serving as a means to use as a linguistic immersion applying knowledge acquired in class ("learning by doing").

## COURSES

The Spanish courses are aimed at students over 16 years of age, and no previous level of Spanish is required. Each group has a maximum of 10 students. Following a totally communicative approach, and working in class the encountered resources then will be used in our social and cultural activities of the afternoon ("learning by doing"), since learning is not only dynamic and attractive, but guarantees a solid progression in each of the skillsets, simultaneously keeping in mind the specific needs of our students.

At our website [www.tecsevilla.com](http://www.tecsevilla.com) you'll be able to find several different types of courses and their prices:

.- General Spanish Courses (<http://www.tecsevilla.com/en/learn-spanish/general-spanish-courses> )

.- Groups for young students (<http://www.tecsevilla.com/en/learn-spanish/groups-for-young-students> )

## ACCOMODATION

**TEC Sevilla** helps in the search of accommodation to whoever wishes it. Rates per week vary depending on the option chosen, and the regime of stay. Shared apartments, B & B, and accommodation with families in full board, half board or accommodation only.

All families are carefully selected to ensure a pleasant stay for all participants and also, practicing Spanish in complete immersion. Families who love Seville and are delighted of showing their city to anyone willing to be immersed in the Spanish way of life. All of them live in very nice locations, either in the historic city centre or in neighbourhoods close to the downtown.

## SOCIAL AND CULTURAL ACTIVITIES

More than activities, we really mean authentic life experiences. Not only visits to the different monuments and museums of the city or flamenco nights... Through the innumerable events that take place in the city of Seville throughout the year, any excuse is good to continue practicing Spanish outside the classroom:

Learn about gastronomy by discovering our tapas

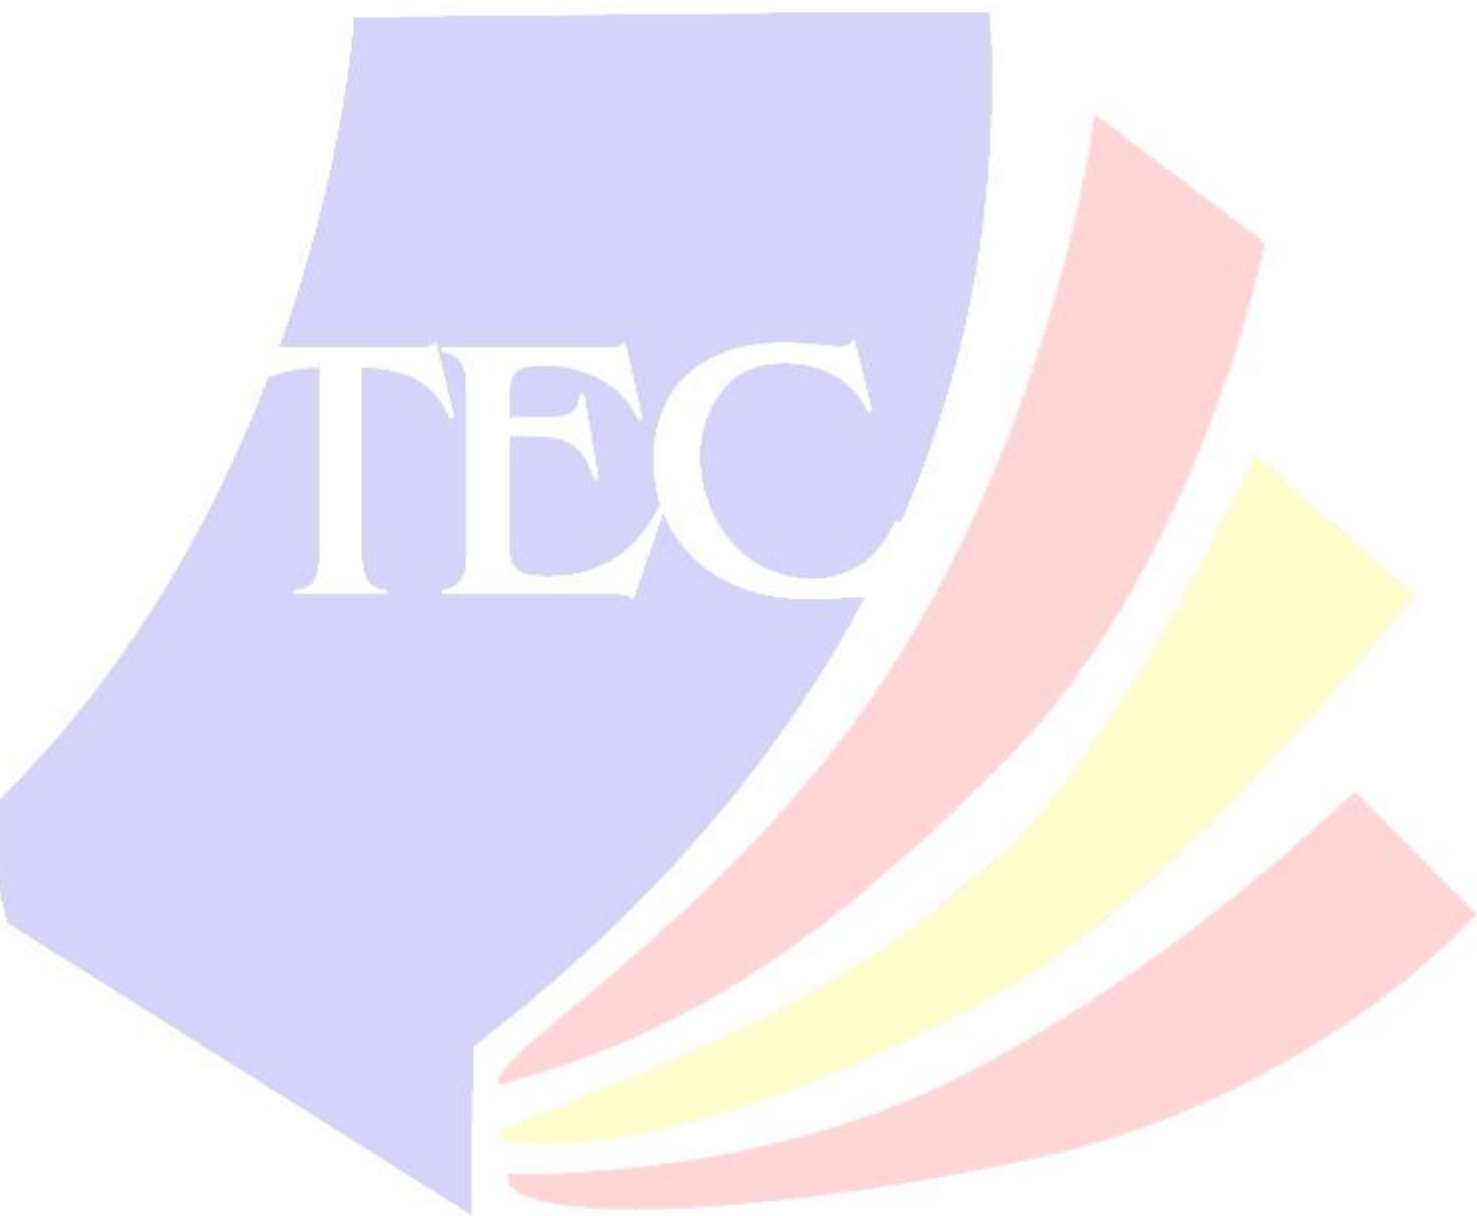

The Spring Festival in the city is also a good reason to involve our students in the most celebrated traditions and as always, we do this too in Spanish.

Not to mention the tours through the most well-known movie scenes: Game of Thrones, Star wars, Laurence of Arabia, Knight and Day.....
